

PYAE PAING KYAW

SOFTWARE DEVELOPER

Myanmar | pyaepaikyaw@gmail.com | 09 965 368 309 | pyaepaingkyaw.from-mm.dev | [LinkedIn](#)

- A dedicated final year Computer Science student specializing in C# backend engineering and end-to-end web system architecture. Proven ability to design highly normalized databases, build secure RESTful APIs, and develop scalable [ASP.NET](#) Core MVC applications. Passionate about writing clean, maintainable code to bridge complex technical logic with real-world business needs. Actively seeking opportunities to contribute to impactful software development projects.

PROJECT EXPERIENCE

Alumni Job Opportunities and Career Networking System (AJOCNS) | Team Leader & Lead Developer

- Architected a comprehensive web-based networking portal for Polytechnic University (Panglong) connecting alumni, students, and external partners using ASP.NET Core MVC.
- Designed a highly normalized relational database (3NF) in SQL Server to efficiently manage user profiles, job postings, and application workflows.
- Integrated Entity Framework Core for secure data access and implemented custom role-based authorization for different user types (Admin, Alumni, Student, Employer).

Paii POS System | Full-Stack Developer

- Developed a complete point-of-sale web application to streamline product inventory management and daily sales transactions.
- Constructed a robust C# backend architecture and seamlessly integrated the AdminLTE dashboard framework for a responsive, user-friendly administrative interface.
- Engineered real-time data processing for accurate stock deduction, profit calculation, and receipt generation.

Digital Wallet API | Backend Developer

- Constructed a secure RESTful API utilizing ASP.NET Core to manage core digital wallet operations and financial data.
- Engineered reliable backend workflows to handle real-time fund transfers, balance inquiries, and detailed transaction logging.
- Implemented token-based authentication to ensure data privacy and secure client-server communication.

EDUCATION

Polytechnic University (PangLong)

Bachelor of Computer Science (B.C.Sc.)

Final year student

2022 to Present

Yangon University of Foreign Languages

Diploma in English for Communication Skills

2026 to Present

TECHNICAL SKILLS

- **Backend & Frameworks:** C#, ASP.NET Core (MVC, Web API)
- **Frontend Development:** HTML5, CSS3, JavaScript, jQuery, Bootstrap, Tailwind CSS, AdminLTE
- **Databases & ORMs:** SQL Server, MySQL, Entity Framework Core, ADO.NET, Dapper
- **Tools & Methodologies:** Git, GitHub, Postman, OOP, 3NF Database Design, RESTful Architecture, Agile/Scrum

LANGUAGES

Myanmar (Burmese): Native

English: B2
